Softeon WMS YARD MANAGEMENT FEATURES

Challenge

Lack of visibility into containers and trailers cost organizations time and money. In addition, inefficient dock door operations waste resources and lead to problems in the warehouse.

Solution

Softeon's yard management capabilities extend the warehouse to the dock and the yard, resulting in improved inventory and resource management. Managing assets and finding inventory in the yard is an easier process with real-time views. The solution extends the warehouse to the dock and the yard, ensuring improved inventory management and visibility.

“ Softeon does everything you need it to do, and it does it without having to feel like you need to be a coder or programmer. I would absolutely recommend Softeon to anyone looking for a solution to their warehousing issues.

Jacob Karr
Vice President of Operations

Softeon WMS for Yard Management

Robust yard management features come included with the Softeon WMS. A graphical viewing tool provides complete visibility of the yard for better inbound and outbound control. This real-time information also adds an extra layer of security to the yard.

The solution optimizes labor resources for inbound receiving and shipping. It also manages assets within the yard including trailer movement and audits. The solution allows you to manage every aspect of trailer and container movement from gate to dock door, including appointment scheduling and trailer check-ins to reduce wait time and delays.

Key Capabilities

- Track location of goods with powerful graphical views for realtime visibility of inbound and outbound yard inventory
- Flexible appointment scheduling to manage yard moves and activity, including deliveries and pickups
- Manage and audit intra-yard moves at the task level
- Manage load arrivals and optimize dock door scheduling to reduce wait time and delays
- Improve asset management to stay on top of inventory turns and avoid container demurrage charges with alert notification

Features

- Appointment scheduling and management
- Trailer check-in and check-out
- Inbound/outbound visibility
- Total control of trailer movement to and from the dock
- Rules-based dock assignment
- Inventory visibility in the yard
- Trailer aging and analysis

Benefits

- Improve yard visibility
- Increase space utilization
- Improve asset, labor, and inventory management
- Gain inbound/outbound control
- Reduce wait time and delays

About IFS Softeon

IFS Softeon is a WMS provider focused exclusively on optimizing warehouse and fulfillment operations. For over two decades now, we have been helping our customers succeed. Investing in R&D enables us to develop software to solve the most complex warehouse challenges. Softeon is laser-focused on customer results, with a 100% track record of deployment success. We believe warehouse leaders shouldn't have to settle for a one size fits all approach to technology.
